Dear Sir:

I am very sorry I did not write you before, but I thought you were familiar with the Eddie Jacobs situation.

He left the ball club July second, supposedly to report to his draft board and return the next day, or July 4th. He was given his round trip fare to Richmond by the ball club. He did not return, and as a result I called the man in Richmond who was on his bond to report it. I thought he would have contacted your office.

I do not understand Jacobs action, he was showing promise, and might have developed to the place where his income would have been worth while. However I feel there is nothing I can do about it.

At the time he left he owed the ball club \$89.95, not including the round trip fare to Richmond. I am very sorry things have turned out this way.

Very Truly Yours
